

Creating a Quick Sire List

When registering calves creating a quick sire list can speed up the registration process. The quick sire list should contain any bulls that were used AI for the previous calf crop along with walking herd sires.

- The quick sire list can be accessed by clicking My Account>View>Herd>Quick Sire List
- To add a bull to the list type in his registration number and click **Add**.
- To remove a bull from the list click **Remove**.
