Transferring Bred Females

There is a new policy that all bred females being transferred at ASA must have all the breeding information including name and registration number of sires, type of service, date of service and/or pasture exposure dates to and from, at the time the bred female is transferred to a new owner.

Miscellaneous Information

- Effective March 1, 2016, DNA sent to the office without complete paperwork will incur an additional charge.
- Effective January 1, 2015, EPD's will only be available to Whole Herd Reporting (WHR) members of the American Shorthorn Association. As a reminder, regardless of membership status of owner, an animal registered by a WHR breeder will have access to EPDs for the lifetime of that animal.
- All A.I. Sires and Donor Dams are required to have all genetic conditions tested (TH, PHA, DS) and DNA genotype (SeekSire) completed before registration of progeny.
